Office Action Summary

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-35 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 11.

Claims 36-42 are rejected under 35 U.S.C. 102(b) as being anticipated by Sawan et al 5817325.

The rejection of record is maintained.

Applicant's arguments filed on 6/20/03 have been fully considered but they are not persuasive. Applicants remarks in accord with faxed summary of discussion of 4/16/03 are persuasive but not regarding Sawan, who provide cationic benzalkonium chloride adhered to by curing, by covalent bonding (col. 4, line 41-43) to polyurethanes, Nylon (col. 7, line 54, 55, 64), providing non-leaching antimicrobial composition. (Col. 8, lines 16-20). Applicant's position on transfer is not convincing. Examiner reads Sawan to provide a net work of extended arms of the quaternary moieties that attach to bacterial cells as they come in contact with the composition. In fact, the composition is what applicant is claiming, so if this is an incorrect interpretation of the effects of the benfal known bound to polymer substrates, applicant should identify what is missing and insert that material in the claim to distinguish from Sawans identical embodiment.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP
